BLUETUNE-POP

Pop it out!

The Bluetune Pop is a portable speaker with a built in rechargeable lithium battery. This little device has thanks to its pop-in/out mechanics an excellent sound and comes along with 4 watts of power. With the Bluetooth function, you can play your favorite music directly from your smartphone, notebook etc without the hassle of cables. Non-Bluetooth enabled devices can be connected conveniently via the supplied USB connecting 2in1 audio cable. Thus the Bluetune Pop is the ideal companion for traveling.

- **Performance mini-speaker-system for portable audio sources such as mobile phones, iPod, iPhone, netbook/notebook – 4 Watt Performance!**
- **Bluetooth V3.0 + A2DP**
- **2 in1 USB Audio Cable for connecting non Bluetooth devices**
- **Integrated Class-D amplifier for excellent acoustic performance (360° sound field)**
- **Integrated Li-Ion-battery (USB chargeable) for max 8 hours playtime (5 hours via Bluetooth)**
- **Great sound, elegant and stylish design and quality finish.**

Pop-in/-out - Mechanics

The Bluetune pop can be reduced using a spring mechanism to pocket size. When open, the additional housing improves the sound quality and volume, in combination with a modern Class-D amplifier and the telescope housing for an incredibly clear and full sound.
